

# 2024 Daher Kodiak 100 Series III

Serial Number: 100-OTBD

Registration : TBD

Price: Inquire

## Kodiak 100 Series III by DAHER

The beauty of the Daher Kodiak, it is as strong and reliable as a pickup truck, yet versatile enough to take the entire family and their gear to their vacation home or off to some new spot they've dreamed of visiting. Want to drop into a remote camping site? No problem. The Kodiak can land on gravel or grass while hauling all of the toys. It is tough, forgiving, and as safe as they come. The ability to fly in and out of remote, distant locations is enabling the lifestyle choices only dreamed of before. The Kodiak 100 Series III is the next generation in continuous improvement. With a smarter, pilot-friendly cockpit, improved situational awareness and safety, more comfort for all passengers, float-ready with standard equipped pitch-latch propeller and lower fuselage skin gap fillet sealant, and the industry leading Kodiak Care Maintenance, which covers scheduled maintenance up to the 4th annual inspection or up to 1,000 hours flight time - you're going to love the new Kodiak 100 Series III.
